

## Intent of Careers Programme for Primary *Exploration and Growth*

We believe that every child deserves the opportunity to explore their strengths, interests and future possibilities, no matter their starting point or individual needs. Our careers programme is designed to be inspiring, inclusive and accessible, supporting children to develop a sense of identity, purpose and belonging in the wider world.

Through sensory experiences, storytelling, role play, visits and encounters with the world of work, our careers programme is discretely incorporated into the Primary curriculum to meet the needs of our learners, ensuring that all children can imagine a positive future for themselves and begin to see their place in it.

We aim to:

- Broaden aspirations by exposing pupils to a diverse range of jobs, roles and life pathways in a way that is meaningful and engaging.
- Develop key life skills such as communication, teamwork, problem solving and independence through real life contexts and practical experiences.
- Foster self-awareness and confidence, helping pupils to recognise their unique abilities and understand how these can be used in the world around them.

- Promote inclusion and community links, encouraging positive relationships with local employers, families and role models.
