

### Preparation For Adulthood

At Cambridge Park 6th Form we are committed to providing a comprehensive and inclusive educational experience for students with special educational needs. Our focus goes beyond academics - we believe in preparing students for a successful transition into adulthood and equipping them with the necessary skills for independent living.

Our 'Skills for Independent Living' program is specifically designed for students in the 6th form, offering a diverse range of life skills training to help them navigate the challenges and opportunities that lie ahead. We recognize that every individual is unique, which is why our curriculum is tailored to meet each student's specific goals, abilities, and aspirations. This is achieved through:

- Personal Development
- Sports and Health
- Advocacy and Enrichment
- Travel Training
- Pop-Up Café
- Enterprise Skills
- Domestic Responsibility Suite

At Cambridge Park 6th Form, we are dedicated to empowering our students to become self-reliant, confident individuals who are prepared for the challenges and opportunities that come their way in adulthood. Join us in this exciting journey as we provide a solid foundation for independent living, empower students to pursue their dreams, and celebrate their achievements every step of the way.

**To arrange a tour please contact reception on: 01472 230110**

## The Cambridge Park Academy 6th Form

**The only 5-day provision for post - 16  
students with Special Educational Needs in  
North East Lincolnshire.**

*Character – Preparation - Achievement*

# The Curriculum at Cromwell Road Campus.

Our bespoke sixth form curriculum builds on the skills and knowledge that have been taught and embedded across the curriculum during their time in school. These skills are then developed and applied through the curriculum in preparation for adulthood.

We aim to prepare each learner for the next stage in their life, whether that be employment, further education or supported living within the community.

The curriculum is seen as a bridge on the journey between childhood and adult life, whatever that might entail for each individual student; and is designed to provide students with the skills, knowledge and behaviours to both enable access and to be successful on the next part of that journey.

Maths and English skills are embedded throughout each of the Vocational offers to support application for adult life and the world of work.

## Specialised Pathways

Depending on the needs and aspirations of each learner they will be enrolled onto 1 of our 2 custom designed pathways: **Employability or Independence.**

## Our Vocational Offer:

### Small Animal Care

At Cambridge Park Academy 6th Form, we are thrilled to present our Small Animal Care Curriculum, specially designed to provide an engaging and inclusive learning experience for students with special educational needs. Our program offers hands-on opportunities to help students develop important life skills such as empathy, responsibility, and respect for all living creatures while exploring the fascinating world of animal care.

Through our Small Animal Care Curriculum, students will gain practical experience in the care of small animals such as rabbits, guinea pigs, and geckos. Learners will gain knowledge in relation to animal husbandry, health and welfare, and how to handle and care for them safely and gently. Students will also develop a deep understanding of their role as a responsible caregiver for animals, helping them to foster empathy, compassion, and respect for animal welfare.

### Eco-Horticulture

At CPA 6th Form, we are excited to continue our innovative Eco-Horticulture Curriculum, specially designed to cater to the unique learning needs of students with special educational needs. With a strong emphasis on environmental sustainability and hands-on learning experiences, our program aims to cultivate growth and empower students to thrive in a green and inclusive environment. Through partnerships with local green spaces, community gardens, and eco-conscious organizations, our Eco-Horticulture Curriculum offers students a unique opportunity to engage with their local community, develop important social skills, and contribute to a more sustainable future.

### Catering

Our specialized Catering Curriculum is designed to unlock the culinary potential of students with special educational needs. Our program offers a unique opportunity for students to explore the captivating world of culinary arts while fostering independence, creativity, and valuable life skills.

Our Catering Curriculum goes beyond cooking; it serves as a platform for students to develop a range of essential skills in a supportive and inclusive environment. Through hands-on practical experiences, students will gain expertise in food preparation, cooking techniques, food safety, and nutrition. They will also develop essential skills such as teamwork, time management, organization, communication, and problem-solving that are crucial for success in both the kitchen and other areas of life.

### Work Experience

Our work experience programmes provide students with an opportunity to develop their skills and knowledge in the workplace, as well as gaining valuable experience of working in a professional setting. We work closely with employers and other educational providers to ensure that our work experience programmes are tailored to the individual needs of our students, with a focus on providing meaningful and purposeful opportunities.
